http://www.miontec.de

Early bird discount:

If you register at least 3 months before the beginning of the seminar, you will receive an early bird discount of 80,00 € net on the seminar price.

Services:

The price includes drinks, snacks, lunch buffet on the seminar days and dinner on the first day, as well as the seminar documents.

Overnight stays and seminar location:

Lindner Hotel BayArena Leverkusen
Bismarckstraße 118, D-51373 Leverkusen
Phone +49-(0)214-8663-0
The price for the night in a single room, including breakfast buffet per night is 114,00 € incl. VAT and is a preferential rate when booking through the MionTec GmbH.
We will gladly do the hotel reservation depending on availability and early registration.
Please note: We ask you to settle these costs with the hotel before your departure !!

Registration conditions:

There may be important reasons that do not allow you to attend the seminar. However, should there be no written cancellation until 14 days before the beginning of the seminar, please understand that we have to charge the seminar fee and, if applicable, the room reservation made for you in full. Invoicing takes place after the seminar.

Seminar and Workshop

on

DI-Ion Exchange Plants

for

Supervisors and Engineers

Function and operation,
process engineering,
plant analysis, resin examination

– Basic seminar –

on 26.09. + 27.09.2019

in Leverkusen, Lindner BayArena Hotel

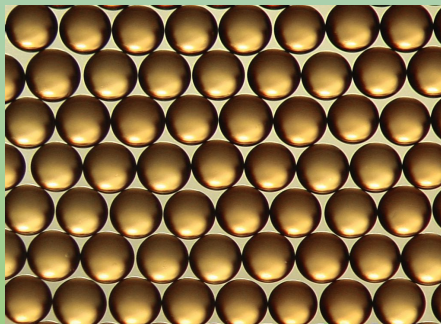

www.miontec.com

On the subject

Gain more information on what's going on in ion exchange systems and decide based on reliable knowledge when it comes to the function and operation of your plant. Benefit from our experience in reviewing and analysing problematic plant conditions. Find out what the results of a resin analysis tell you.

Target group

Supervisors of demineralisation plants (e.g. plant engineers, chemists, laboratory manager)

Contents of the training

1st day:

- Some helpful water chemistry tools
- How the common IEX-resins work
- Operation and process engineering of demineralisation plants

2nd day:

- Peculiarities of mixed beds
- System analysis, troubleshooting in case of problems
- Interpretation of resin examinations
- Fouling, special treatments, disinfection

The intensity of the different sub-topics can be adapted to the interests of the respective group of participants. The content presented here is simplified to give you an overview.

We limit the number of participants to ensure optimal learning quality and lead a waiting list, if seminars are overbooked.

Agenda

1st day:

Start: 9:00
listening
Pause: 10:30...11:00
thinking
Lunch: 13:00...14:00
working
